Transportation Incident Report R001

DOC-017 | Version 2025 | HISTORICAL | Controlled synthetic enterprise corpus

RV032 synthetic draft. Details beyond canonical facts are proposed and require review before benchmark freeze.

Incident identification

Event EVT-INC-R001-2025. Route R001; origin DC01, destination DEST001, distance 95 km. Historical transportation incident in 2025.

Event timeline — proposed synthetic details

A delivery on route R001 missed the agreed delivery window following an unplanned vehicle breakdown. The Control Tower recorded the delay, notified the receiving site and arranged replacement capacity.

Treatment and precedent

The incident was closed after proof of delivery, carrier root-cause analysis and a preventive maintenance corrective action. Committee follow-up is recorded in DOC-019. These operational details are proposed synthetic case facts.

Retrieval caution

Do not confuse this 2025 R001 event with the separate 2026 R003 event in DOC-018.
