Transportation Incident Report R003

DOC-018 | Version 2026 | HISTORICAL | Controlled synthetic enterprise corpus

RV032 synthetic draft. Details beyond canonical facts are proposed and require review before benchmark freeze.

Incident identification

Event EVT-INC-R003-2026. Route R003; origin DC01, destination DEST003, distance 285 km. Separate from 2025 route R001.

Event timeline — proposed synthetic details

A serious shipment disruption on R003 resulted from a dispatch control failure and delayed escalation. The event was classified as a severe transportation incident; the receiving site and carrier were notified.

Root cause and actions

Root cause review identified missing dispatch verification and insufficient escalation coverage. Immediate containment included alternate vehicle assignment and manual shipment monitoring.

Governance follow-up

The 2026 Operations Committee recorded decisions in DOC-020, with action owners and open/closed status tracked in DOC-021. Details are synthetic proposals requiring consistency review.
