Transportation Policy 2024

DOC-002 | Version 2.0 | SUPERSEDED | Controlled synthetic enterprise corpus

RV032 synthetic draft. Details beyond canonical facts are proposed and require review before benchmark freeze.

Historical applicability

Effective 2024-01-01 through 2025-12-31. This policy was superseded by DOC-001, version 3.0, effective 2026-01-01. It must not be used to answer current-policy questions.

OTIF target

The national OTIF target was 95% for 2024 and 2025. OTIF is on-time and in-full deliveries divided by total deliveries. The 2025 governance decision increased the target to 97% from 2026-01-01.

Historical service management

Transport category commitments and carrier review operated under historical procedures. Exact historical category SLAs are not fixed by canonical facts; do not infer them from the current policy.

Authority and provenance

Historical comparison: DOC-001, DOC-019. Expected use: Q11 and Q28; distractor for Q10.
